>> ADDITIONAL DATE-BASED SAVINGS AVAILABLE

Weddings are a time of celebration with your closest friends and family, and in honor of being awarded The Knot's "Best of Weddings" award for the 11th year in a row - **Celebrating a DECADE OF EXCELLENCE** - we want to welcome you to the Pro Sound & Light Show Family!

My name is Aaron Abramson and I am the Chief Entertainment Officer at Pro Sound & Light Show. As a DJ myself, I get to personally celebrate with 30-40 couples each year, as well as train and develop more than 37 entertainers on my staff, providing award winning Disc Jockey, Event Lighting, and Photo Booth services to more than 350 couples in Minnesota & Wisconsin.

Whether you are having a small reception on a budget, or planning the gala of a lifetime, Pro Sound & Light Show has the experience and options to help you have the wedding reception you want. There is a reason why we are on more Preferred Vendor lists at venues and recommended by other vendors.

A few details about the sale

1. Sale prices are for new bookings only. If you are an existing customer, you may add-on sale items to your package but cannot partake in offers for anything you already have booked.
2. Sale prices are subject to availability. Simply put, we are already fully booked for many dates. If we are not available, we will happily put you on a waiting list.
3. Quantities are limited. We can only book a certain number of events per date, and many dates are more popular than others. So be sure to book early to secure your date!
4. Sale prices require a deposit of \$500, with additional savings if paid in full.

I truly hope that you are able to get in on these awesome deals and that we will be working together on your wedding or special event in the near future.

Best Wishes,

Chief Entertainment Officer of Pro Sound & Light Show

Wedding DJ Entertainment Services

Wedding Packages vs. Custom Quotes

Every year we evaluate the most commonly requested DJs, services & add-ons to determine what our **most popular packages** are. We currently have 3 options with the most popular add-ons and services already bundled together for you. These packages can be customized by adding-on extra services for an additional fee, however, removing a service from a package will not reduce the price. If you're looking for something that doesn't quite fit within our package bundles, call us at 888-347-5562 for a custom quote.
